

## Assignment

**Design a dashboard for a manager which captures the following**

- Total Resources
- Tasks assigned to each resource
- Progress on tasks.
- Start date/End date of each task
- Estimated time for each task
- New tasks/projects in pipeline
- Upcoming Planned leaves/Special events/Public Holidays

Design a screen which displays the above on a desktop

Solution:

## Manager Dashboard

### Challenges faced by Manager

- Achieving a Stretch Goal.
- Tracking and Increasing Team Productivity.
- Managing Communication Between Teams
- Improper goals & objectives
- Unrealistic deadlines
- Insufficient team skills

## Assignment

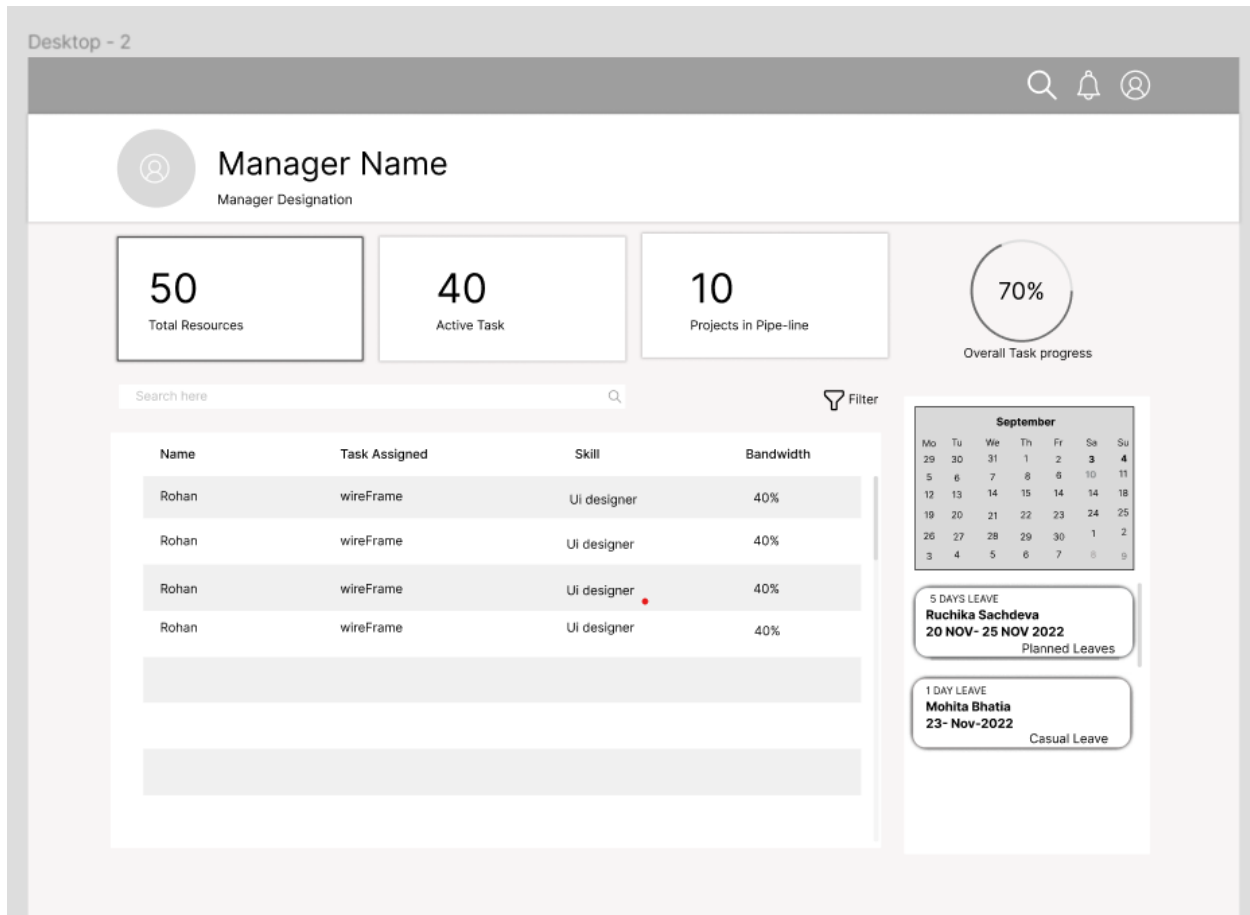

### LOW FIDELITY DESIGN FOR MANAGER DASHBOARD.

# Assignment

## Figma Design

### DASHBOARD MAIN SCREEN

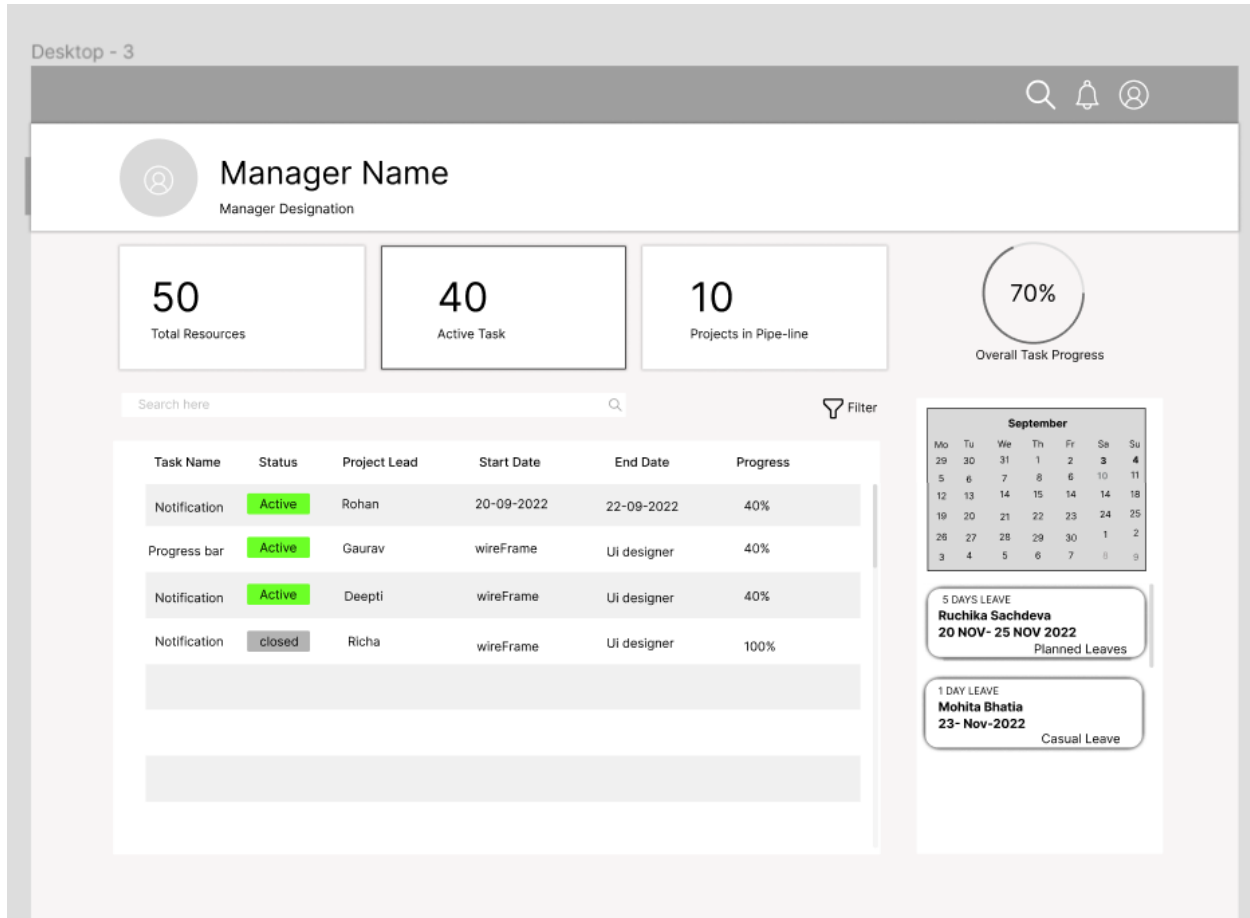

#### Flow:

1. Here, the progress meter shows how things are going generally
2. Calendar shows public holidays and significant occasions, as well as toasts Notification for the team members who are taking planned time off.
3. The total resources shown here represent all resources that are currently being managed. To examine tasks allocated to resources, click the Total Resources card.
4. From the search bar element, the user may also look up a specific column.

# Assignment

## INTERACTION FOR ACTIVE TASKS SCREEN

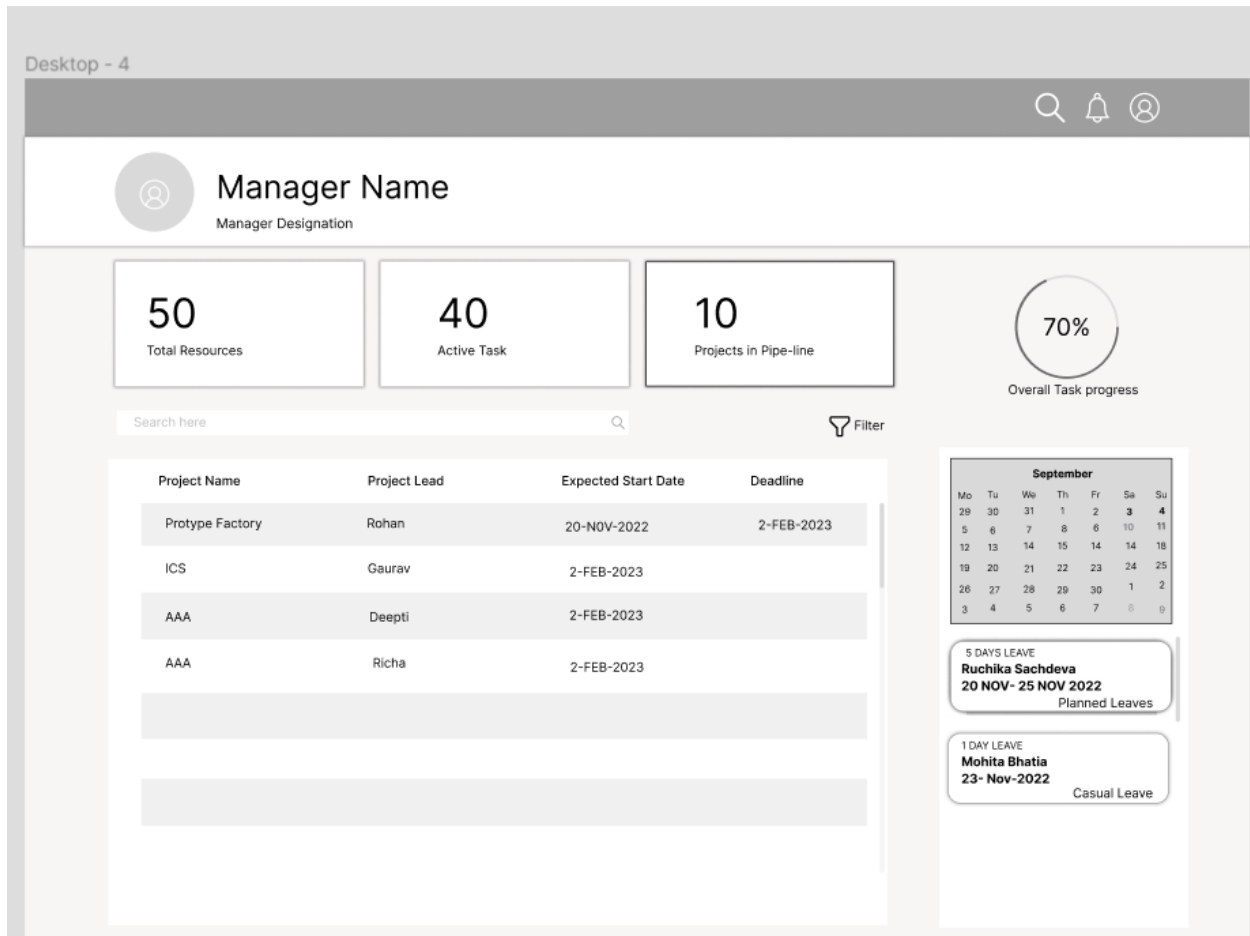

### Flow:

1. The user will click on the Active Task card to view the details of each running work, including the start and end date of each task.
2. From the search bar element, the user may also look up a specific column.

## Assignment

### INTERACTION FOR UPCOMING PROJECT SCREEN

#### Flow:

1. To view information about a forthcoming work, the user will click on the project in the pipeline
2. From the search bar element, the user may also look up a specific column.
